Advisor Portfolio Rebalancing & Suitability Review Platform

Field	Value
Project	Advisor Portfolio Rebalancing & Suitability Review Platform
JIRA Project	APR — advisor-portfolio-rebalancing.atlassian.net
Version	1.0
Date	25 May 2026
BRD Reference	BRD v1.0
Total Issues	80 (8 Epics · 46 User Stories · 26 Tasks)
Total Story Points	199

Ownership Map

Assignee	Role	Owns
Vrushali	Product Owner	All 8 Epics
Gaurav	Business Analyst	All 46 User Stories
Vivek	UX Designer	8 UX Design Tasks
Rupa	Developer	10 Dev Tasks
Apra	QA Engineer	8 QA Tasks

★ **AI-Added** — Requirements marked AI-Added were inferred to ensure completeness. Must be reviewed before sign-off.

EP-01 · Advisor Dashboard

JIRA Epic: APR-5 · **Owner:** Vrushali · **Priority:** Critical

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-01	Epic	Advisor Dashboard	Provide advisors with a centralised portfolio overview showing drift indicators, risk profiles, and proposal status.	Dashboard loads ≤3s; all assigned clients visible with all required fields.	0	Critical	Vrushali	Source Docs	APR-5
US-001	Story	View all assigned client portfolios	As a Financial Advisor, I want to see all	All clients shown; name, risk profile,	5	Critical	Gaurav	Source Docs	APR-13

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			my assigned clients on a dashboard so I can prioritise rebalancing actions.	current vs target %, drift %, last review date; loads in 3s.					
US-002	Story	Colour-coded drift indicators	As a Financial Advisor, I want colour-coded drift indicators so I can instantly spot portfolios needing attention.	Green $\leq 5\%$, Amber $5-10\%$, Red $>10\%$; legend visible.	3	High	Gaurav	Source Docs	APR-14
US-003	Story	Sort and filter dashboard	As a Financial Advisor, I want to sort and filter the dashboard so I can focus on specific client segments.	Filters: name, risk profile, drift band, date range; results update in $<1s$.	3	High	Gaurav	Source Docs	APR-15
US-004	Story	Proposal status badge	As a Financial	Status badge: Draft/In	2	High	Gaurav	Source Docs	APR-16

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		per client	Advisor, I want to see the latest proposal status per client so I don't duplicate work.	Review/Approved/Rejected/None ; reflects latest state on load.					
US-005 ★	Story	Manual refresh and last-updated timestamp	As a Financial Advisor, I want a manual refresh button and timestamp so I know data is current.	Refresh updates timestamp; no stale data beyond 24h.	2	Medium	Gaurav	AI-Added	APR-17
UX-01	Task	Design advisor dashboard wireframes (S-02)	Design wireframes, hi-fi mockups, and interaction specs for the Advisor Dashboard screen S-02.	Figma wireframes + hi-fi mockup + component spec.	5	Critical	Vivek	Source Docs	APR-18
TK-01	Task	Backend — Portfolio drift calculation API	Implement portfolio drift calculation API returning per-asset-	API returns drift % per asset class; P95 ≤500ms under 100	5	Critical	Rupa	Source Docs	APR-19

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			class drift for each assigned client.	concurrent users.					
TK-02	Task	Frontend — Dashboard table component with filters	Build the filterable, sortable dashboard table component per UX spec S-02.	All filter/sort combinations work; WCAG 2.1 AA; responsive at 768px+.	5	Critical	Rupa	Source Docs	APR-20
QA-01	Task	Test advisor dashboard (US-001 to US-005)	Validate all Advisor Dashboard stories against acceptance criteria.	All ACs pass; cross-browser; WCAG scan zero violations; no P1/P2 defects.	5	High	Apra	Source Docs	APR-21

EP-02 · Portfolio Detail View

JIRA Epic: APR-6 · **Owner:** Vrushali · **Priority:** Critical

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-02	Epic	Portfolio Detail View	Deep-dive per-client view of holdings, allocation charts, client profile,	Detail page loads ≤3s; all holdings, chart, profile, and history visible.	0	Critical	Vrushali	Source Docs	APR-6

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			and proposal history.						
US-006	Story	View all client holdings	As a Financial Advisor, I want to see all holdings with asset class, ticker, quantity, value and allocation.	All 7 fields rendered per holding; loads in 3s.	5	Critical	Gaurav	Source Docs	APR-22
US-007	Story	Current vs target allocation chart	As a Financial Advisor, I want a visual chart comparing current vs target allocation per asset class.	Bar or donut chart; ARIA accessible; readable at 1280x800.	3	High	Gaurav	Source Docs	APR-23
US-008	Story	Client risk profile and goals	As a Financial Advisor, I want to see the client's risk profile, goals and time horizon.	All 3 visible without extra navigation.	2	High	Gaurav	Source Docs	APR-24
US-009 ★	Story	Proposal version	As a Financial	All proposal	3	Medium	Gaurav	AI-Added	APR-25

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		history	I Advisor, I want to see all prior proposals for a client so I have full context.	s listed: ID, date, status, advisor; click opens read-only; paginated at 20+.					
US-010 ★	Story	Holdings CSV and Excel export	As a Financial Advisor, I want to export holdings data as CSV or Excel for offline analysis.	In-page download; all fields included; CSV and .xlsx formats.	2	Medium	Gaurav	AI-Added	APR-26
UX-02	Task	Design portfolio detail view wireframes (S-03)	Design wireframes and UI specs for the Portfolio Detail View screen S-03.	Figma wireframes + hi-fi mockup + interaction annotations.	5	Critical	Vivek	Source Docs	APR-27
TK-03	Task	Frontend — Allocation chart and portfolio detail page	Build a reusable allocation chart component and the full portfolio detail page per UX spec S-03.	Chart ARIA accessible; renders in all supported browsers; reusable across screens.	5	High	Rupa	Source Docs	APR-28
QA-02	Task	Test	Validate	All ACs	5	High	Apra	Source	APR-29

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		portfolio detail view (US-006 to US-010)	Portfolio Detail View stories against acceptance criteria.	pass; chart accuracy verified; export validated; no P1/P2 defects.				Docs	

EP-03 · Rebalancing Proposal

JIRA Epic: APR-7 · **Owner:** Vrushali · **Priority:** Critical

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-03	Epic	Rebalancing Proposal	Enable advisors to create, edit, version, attach files to, and submit rebalancing proposals with real-time validation.	Full proposal workflow completable without leaving platform ; auto-save every 2 min; versions immutably preserved.	0	Critical	Vrushali	Source Docs	APR-7
US-011	Story	Initiate a new rebalancing proposal	As a Financial Advisor, I want to start a proposal from the dashboard or portfolio detail	Draft with unique PROP-YYYYMMDD-NNNN ID; accessible from both location	3	Critical	Gaurav	Source Docs	APR-30

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			view.	s.					
US-012	Story	Adjust allocations with real-time 100% validation	As a Financial Advisor, I want real-time sum validation so I can't submit an invalid proposal.	Inputs and sliders synchronised; submit disabled when total $\neq$ 100%; inline error shown.	5	Critical	Gaurav	Source Docs	APR-31
US-013	Story	Pre/post allocation comparison panel	As a Financial Advisor, I want a side-by-side comparison of current vs proposed allocation.	Panel updates within 500ms; shows current %, proposed %, delta, value change.	3	High	Gaurav	Source Docs	APR-32
US-014 ★	Story	Proposal auto-save with last-saved timestamp	As a Financial Advisor, I want auto-save every 2 minutes so I never lose work.	Auto-save without user action; 'Last saved HH:MM:SS' visible; no data lost on tab close.	3	High	Gaurav	AI-Added	APR-33
US-015	Story	Immutable	As a Financial	Version increment	5	Critical	Gaurav	Source Docs	APR-34

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		proposal version history	I Advisor, I want every save to create an immutable version snapshot.	nts on each save; prior versions accessible read-only; no version modifiable.					
US-016	Story	Add free-text notes to proposal	As a Financial Advisor, I want to add notes to provide context for the compliance reviewer.	Notes up to 2,000 chars; live character count; saved with each version.	2	High	Gaurav	Source Docs	APR-35
US-017 ★	Story	Attach supporting PDF documents	As a Financial Advisor, I want to attach up to 5 PDFs max 10 MB each.	PDF type enforced ; 10 MB limit; max 5 files; listed with name and size.	3	Medium	Gaurav	AI-Added	APR-36
US-018	Story	Discard draft with confirmation	As a Financial Advisor, I want to discard a draft with a confirmation prompt.	Confirmation required ; logged in audit trail; only available in Draft state.	2	Medium	Gaurav	Source Docs	APR-37

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
UX-03	Task	Design proposal editor and suitability modal (S-04, S-05)	Design wireframes and hi-fi UI specs for Proposal Editor S-04 and Suitability Modal S-05.	Figma wireframes + hi-fi mockup + component spec for both screens.	8	Critical	Vivek	Source Docs	APR-38
TK-04	Task	Backend — Proposal CRUD API with versioning	Implement proposal CRUD API with versioning, auto-save, and file attachments.	All CRUD operations; immutable versioned snapshots; unique ID format; P95 ≤500ms.	8	Critical	Rupa	Source Docs	APR-39
TK-05	Task	Frontend — Proposal editor UI (Screen S-04)	Build full proposal editor per UX spec S-04: sliders, comparison panel, notes, attachments, version sidebar.	All controls functional; WCAG 2.1 AA; responsive at 768px+.	8	Critical	Rupa	Source Docs	APR-40
QA-03	Task	Test rebalancing	Validate all Rebalancing	All ACs pass; auto-	8	Critical	Apra	Source Docs	APR-41

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		proposal workflow (US-011 to US-018)	cing Proposal stories against acceptance criteria.	save tested; file limits verified; version immutability confirmed; no P1/P2 defects.					

EP-04 · Suitability Validation Engine

JIRA Epic: APR-8 · **Owner:** Vrushali · **Priority:** Critical

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-04	Epic	Suitability Validation Engine	Automatically validate proposal allocations against client risk profiles on submission.	100% of submissions trigger validation; results ≤5s P95; critical violations block submission.	0	Critical	Vrushali	Source Docs	APR-8
US-019	Story	Auto-trigger validation on submission	As a Financial Advisor, the system should automatically trigger suitability validation when I	Triggers on submit; progress indicator shown; completes ≤5s P95.	3	Critical	Gaurav	Source Docs	APR-42

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			submit.						
US-020	Story	Risk profile evaluation with configured rules	As a Compliance Officer, I want the engine to evaluate proposals against configured risk profile rules.	Validate s Conservative, Moderate, Aggressive; hard-rule violations always produce Critical result.	8	Critical	Gaurav	Source Docs	APR-43
US-021	Story	Structured validation report display	As a Financial Advisor, I want a clear validation report listing all violated rules.	Report: overall result; each violation : rule ID, severity, plain-language description.	5	Critical	Gaurav	Source Docs	APR-44
US-022 ★	Story	Hard stop for critical violations	As a Compliance Officer, I want critical violations to hard-block submission.	Submit blocked; all critical violations listed; advisor must resolve before resubmitting.	5	Critical	Gaurav	AI-Added	APR-45
US-023 ★	Story	Warning acknowledgment flow	As a Financial Advisor, I want to acknowledge	Warning modal shown; submit only after all checkbo	3	High	Gaurav	AI-Added	APR-46

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			non-critical warnings to submit with awareness.	xes checked; acknowledgements logged.					
US-024 ★	Story	Admin panel for rule configuration	As a Compliance Officer, I want to create, edit, enable, and disable suitability rules.	Rule changes effective on next submission; all modifications logged; admin UI restricted.	5	High	Gaurav	AI-Added	APR-47
UX-04	Task	Design suitability rule administration panel	Design the Suitability Rule Administration panel as part of Admin Screen S-09.	Figma wireframes + hi-fi mockup for rule list, create/edit form, and toggle.	5	High	Vivek	AI-Added	APR-48
TK-06	Task	Backend — Suitability validation engine service	Implement the suitability validation engine supporting Critical and Warning rules.	Engine returns report ≤5s P95; all rule types tested; rules configurable without redeployment.	13	Critical	Rupa	Source Docs	APR-49
QA-04	Task	Test suitability	Validate Suitability	All ACs pass; hard-	8	Critical	Apra	Source Docs	APR-50

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		validation engine (US-019 to US-024)	Validation Engine stories against acceptance criteria.	stop verified; warning flow tested; performance ≤5s P95; no P1/P2 defects.					

EP-05 · Approval Workflow

JIRA Epic: APR-9 · **Owner:** Vrushali · **Priority:** Critical

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-05	Epic	Approval Workflow	Multi-stage review: Draft → Submitted → Compliance Review → Approved/Rejected with notifications and SLA escalation.	State transitions atomic and logged; in-app ≤30s; email ≤5min; escalation at 5-business-day threshold.	0	Critical	Vrushali	Source Docs	APR-9
US-025	Story	Multi-stage workflow state machine	As a Compliance Officer, I want a structured workflow so proposals follow	States only transition in defined sequence; all transitions atomic and	5	Critical	Gaurav	Source Docs	APR-51

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			a defined approval path.	logged.					
US-026 ★	Story	Compliance notification on submission	As a Compliance Officer, I want in-app and email notification when a proposal reaches review.	In-app ≤30s; email ≤5min; includes proposal ID, client name, direct link.	3	High	Gaurav	AI-Added	APR-52
US-027	Story	Approve / reject with mandatory comment	As a Compliance Officer, I want to be required to leave a comment on rejection.	Reject blocked if comment < 10 chars; actions update state immediately.	3	Critical	Gaurav	Source Docs	APR-53
US-028 ★	Story	Advisor notification on decision	As a Financial Advisor, I want to be notified when my proposal is approved or rejected.	In-app ≤30s; email ≤5min; includes compliance officer's comment.	3	High	Gaurav	AI-Added	APR-54
US-029	Story	Revision and resubmit	As a Financial	Rejected returns to Draft;	3	High	Gaurav	Source Docs	APR-55

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		ession after rejection	Advisor, I want to revise a rejected proposal and resubmit .	advisor can edit and resubmit ; creates new version.					
US-030 ★	Story	SLA escalation after 5 business days	As an Operations Lead, I want proposals in review for more than 5 business days to auto-escalate.	Escalation fires at 5-business-day threshold excluding weekends and holidays ; logged; notification sent.	5	High	Gaurav	AI-Added	APR-56
US-031 ★	Story	Compliance officer delegation	As a Compliance Officer, I want to delegate approval authority for a specified period.	Delegation with start/end date; both officers attributed in audit trail.	5	Medium	Gaurav	AI-Added	APR-57
UX-05	Task	Design compliance review screen and delegation UI (S-06)	Design wireframes and hi-fi specs for Compliance Review S-06 and delegation manage	Figma wireframes + hi-fi mockup for proposal panel, approve/reject panel, escalation indicator	8	Critical	Vivek	Source Docs	APR-58

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			ment UI.	, delegati on UI.					
TK-07	Task	Backend — Workflow state machine , notifications, SLA escalation	Implement workflow state machine , notifications, SLA escalation scheduler, and delegation logic.	All transitions atomic; notifications ≤30s in-app; ≤5min email; escalation scheduler tested.	13	Critical	Rupa	Source Docs	APR-59
QA-05	Task	Test approval workflow and notifications (US-025 to US-031)	Validate all Approval Workflow stories against acceptance criteria.	All ACs pass; state transitions verified; notifications timed; escalation tested; no P1/P2 defects.	8	Critical	Apra	Source Docs	APR-60

EP-06 · Audit Trail & Reporting

JIRA Epic: APR-10 · **Owner:** Vrushali · **Priority:** Critical

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-06	Epic	Audit Trail & Reporting	Immutable, searchable, exportable log of	100% of auditable events captured ; all 10 log	0	Critical	Vrushali	Source Docs	APR-10

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			all system and user actions. 7-year data retention .	fields present; CSV export ≤10s for 10,000 records.					
US-032	Story	Automatic logging of all auditable actions	As a Compliance Officer, I want every user and system action logged automatically.	All event types produce a log entry; no auditable action omitted.	5	Critical	Gaurav	Source Docs	APR-61
US-033 ★	Story	Extended log fields including IP and session ID	As a Compliance Officer, I want log entries to capture IP address and session ID.	All 10 fields present: timestamp, user ID, role, action, entity type and ID, prev and new state, IP, session.	3	High	Gaurav	AI-Added	APR-62
US-034	Story	Immutable read-only audit trail	As a Compliance Officer, I want audit entries to be unmodifiable so the trail is tamper-proof.	No edit or delete in UI for any role; direct DB delete blocked at application layer.	3	Critical	Gaurav	Source Docs	APR-63

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
US-035 ★	Story	7-year audit log data retention policy	As a Compliance Officer, I want audit logs retained for 7 years.	Retention policy configured; automated test confirms no premature deletion.	3	Critical	Gaurav	AI-Added	APR-64
US-036 ★	Story	Audit log search, filter, and CSV export	As a Compliance Officer, I want to search and export filtered audit logs.	Filters: date range, user, action type, proposal ID, client ID. CSV export ≤10s for 10,000 records.	5	High	Gaurav	AI-Added	APR-65
UX-06	Task	Design audit trail viewer UI spec (S-07)	Design the Audit Trail Viewer screen S-07 wireframes and hi-fi specification.	Figma wireframes + hi-fi mockup for filterable log table, export button, empty and no-results states.	5	High	Vivek	AI-Added	APR-66
TK-08	Task	Backend — Append-only audit log service	Implement write-once audit log with no-delete constraint, 7-	Insert-only enforced at DB; query API supports all 5	8	Critical	Rupa	Source Docs	APR-67

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			year retention TTL, and filterable query API.	filters; P95 ≤500ms; CSV ≤10s for 10,000 records.					
QA-06	Task	Test audit trail completeness and immutability (US-032 to US-036)	Validate Audit Trail stories against acceptance criteria.	All 12 event types trigger entry; all 10 fields verified; edit/delete blocked; export tested; no P1/P2 defects.	8	Critical	Apra	Source Docs	APR-68

EP-07 · AI Summary Generation

JIRA Epic: APR-11 · **Owner:** Vrushali · **Priority:** High

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-07	Epic	AI Summary Generation	AI-assisted plain-language client summaries from approved proposals. Advisor editable. Branded PDF export.	Summary ≤30s P95; advisor must approve before delivery; original AI text preserved; PDF includes branding.	0	High	Vrushali	Source Docs	APR-11

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
US-037	Story	Generate plain-language AI client summary	As a Financial Advisor, I want the system to generate a plain-language summary of my proposal.	Summary in plain English; no jargon or return projections.	5	High	Gaurav	Source Docs	APR-69
US-038	Story	AI summary references client goals and horizon	As a Financial Advisor, I want the summary to reference the client's goals and time horizon.	Summary explicitly references at least one of: goals, horizon, or risk profile.	3	High	Gaurav	Source Docs	APR-70
US-039 ★	Story	Advisor edit and save AI summary	As a Financial Advisor, I want to review, edit, and save the AI summary before finalising.	Editable rich-text field; save creates versioned snapshot; original AI output preserved read-only.	3	High	Gaurav	AI-Added	APR-71
US-040 ★	Story	Export AI summary	As a Financial	PDF: firm logo,	3	Medium	Gaurav	AI-Added	APR-72

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		y as branded PDF	Advisor, I want to export the summary as a branded PDF.	advisor name, client name, proposal ID; readable at A4 or Letter.					
US-041 ★	Story	30-second SLA with progress indicator	As a Financial Advisor, I want generation to complete within 30 seconds with a visible progress indicator.	Generation ≤30s P95; spinner visible; timeout error with retry option if exceeded.	2	Medium	Gaurav	AI-Added	APR-73
UX-07	Task	Design AI summary editor UI spec (S-08)	Design the AI Summary Editor screen S-08 wireframes and hi-fi specification.	Figma wireframes + hi-fi mockup for rich-text field, original AI toggle, PDF export, progress spinner.	5	High	Vivek	AI-Added	APR-74
TK-09	Task	Backend — LLM integration for AI summary generation	Implement AI summary generation service using	Summaries ≤30s P95; original output preserved; PDF export	8	High	Rupa	Source Docs	APR-75

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		on	configured LLM provider with prompt engineering and PDF export.	with all 4 branding fields.					
QA-07	Task	Test AI summary generation and PDF export (US-037 to US-041)	Validate AI Summary Generation stories against acceptance criteria.	All ACs pass; quality checked; edit and preserve original verified; PDF validated; 30s SLA tested; no P1/P2 defects.	5	High	Apra	Source Docs	APR-76

EP-08 · Authentication & Access Control ★

JIRA Epic: APR-12 · **Owner:** Vrushali · **Priority:** Critical · **Source:** AI-Added

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
EP-08 ★	Epic	Authentication & Access Control	SSO, four-role RBAC, MFA for Compliance & Admin, session timeout with warning, and user admin	All roles access only permitted features; MFA enforced ; sessions expire at 30 min with 2-min	0	Critical	Vrushali	AI-Added	APR-12

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			panel.	warning.					
US-042 ★	Story	SSO via SAML 2.0 / OAuth 2.0	As a System Admin, I want users to authenticate via the firm's IdP so credentials are managed centrally.	Successful SSO login; failed auth blocks access.	5	Critical	Gaurav	AI-Added	APR-77
US-043 ★	Story	RBAC with four roles	As a System Admin, I want four roles with distinct non-overlapping permission sets.	Each role accesses only BRD-defined features; cross-role attempts return HTTP 403 and are logged.	5	Critical	Gaurav	AI-Added	APR-78
US-044 ★	Story	Session timeout with 2-minute warning modal	As a Security Lead, I want sessions to expire after 30 minutes with a 2-minute warning.	Session expires at 30 min; warning modal at 28 min; user can extend from modal.	3	High	Gaurav	AI-Added	APR-79
US-045 ★	Story	MFA for Compliance Officer	As a Security Lead, I want MFA	Login blocked without MFA for these	3	Critical	Gaurav	AI-Added	APR-80

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
		and Admin	enforced for Compliance Officers and Admins.	roles; MFA challenge shown after primary auth.					
US-046 ★	Story	Admin user management panel	As a System Admin, I want to create, deactivate, assign roles, and reset credentials.	All 4 operations succeed; deactivated accounts blocked; all changes logged in audit trail.	5	Critical	Gaurav	AI-Added	APR-81
UX-08 ★	Task	Design login screen and admin panel (S-01, S-09)	Design wireframes and hi-fi specs for Login/SO Entry S-01 and Admin Panel S-09.	Figma wireframes + hi-fi mockup for SSO, MFA challenge, session timeout modal, user management table.	8	Critical	Vivek	AI-Added	APR-82
TK-10 ★	Task	Backend — SSO, RBAC, MFA, session management, user admin API	Implement SAML 2.0 / OAuth 2.0 SSO, RBAC, MFA enforcement, session	SSO tested; RBAC enforced at API layer; MFA tested; session expiry tested; all	13	Critical	Rupa	AI-Added	APR-83

Key	Type	Summary	Story	AC	SP	Priority	Assignee	Source	JIRA
			expiry, and user admin API.	changes logged.					
QA-08 ★	Task	Test authentication, RBAC, MFA, and session management (US-042 to US-046)	Validate all Authentication & Access Control stories including penetration testing.	All ACs pass; RBAC bypass attempts blocked; MFA verified; session expiry tested; pen test passes; no P1/P2 defects.	8	Critical	Apra	AI-Added	APR-84
